HISTORY

The choice of Professional Tradesmen since 1924

The VISE-GRIP® Locking Tool was invented in the 1924 by a blacksmith in a small town of DeWitt, Nebraska. William Petersen was a Danish immigrant who invented the first locking pliers in his blacksmith shop, and began selling them from the back of his car to farmers and people in surrounding towns. He patented his new idea and called it VISE-GRIP®.

Since then, VISE-GRIP® has gained global brand recognition as the first choice for Locking Pliers. Innovation and quality are the core values of the VISE-GRIP® brand. With proven performance in every turn, these are the tools that tradesmen choose first – and pass on to the next generation.

IRWIN® VISE-GRIP® family offers a full line of locking pliers, water pump & VDE Pliers. Certified by TÜV. IRWIN® VISE-GRIP® pliers and wrenches continue to set the standard for dependability, quality, and innovation... today and tomorrow. Wherever there's a need for a quality tool, IRWIN® VISE-GRIP® is on the job.

HANDIWRENCH

Chain pipe wrenches are mainly used in confined spaces, such as against a wall or close to a nest of other piping. Simply loop the chain around the pipe, lock it and the jaws will grip in the direction of the turn. The pipe can then be easily tightened or loosened with short strokes of the handle.
